

EXPRESS SOLUTION

3-GIS is proud to offer clients in the gas distribution industry a suite of products that can simplify the process of tracking and managing assets and facilities. The 3-GIS Express Solution leverages the power of the ESRI ArcGIS Server, offering gas utilities an extensive suite of mapping tools that can be used across the enterprise.

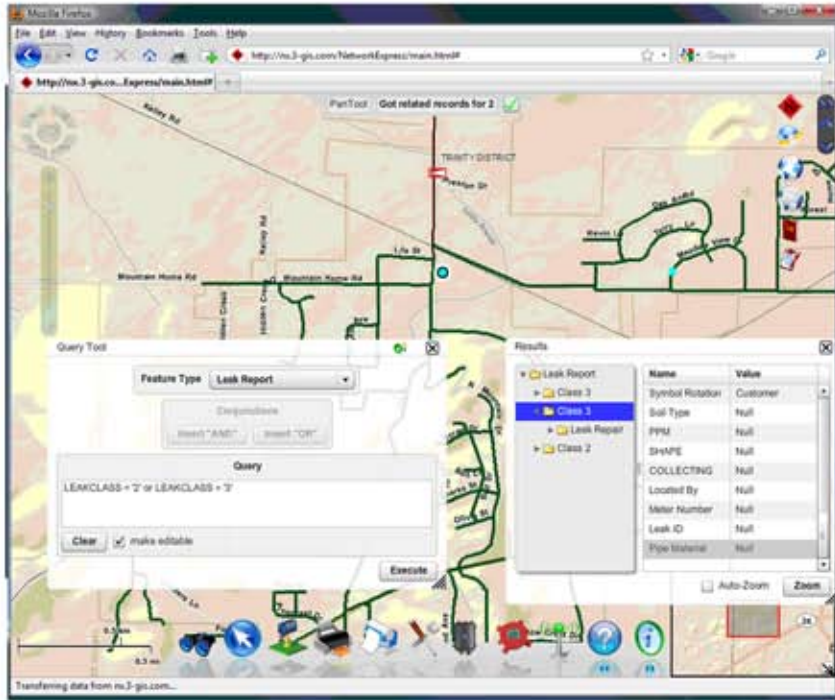

3-GIS Express Solution

NETWORK EXPRESS

GIS Editing and Design on the Web

Network Express provides a modern user interface that is easy to use and interpret. Void of cumbersome menus, drop-downs and commands, Network Express allows the desktop user to quickly and efficiently perform tasks.

Meeting the needs of the desktop user:

- Editing – Placement, Deletes, Edits
- Related Records – Full editing & viewing
- Tracing - Outage, Phase, Isolation
- Plotting
- Flexible Query Tool
- Configurable Reporting
- Address Location, Routing
- Work Order Management

FIELD EXPRESS CHAMELEON

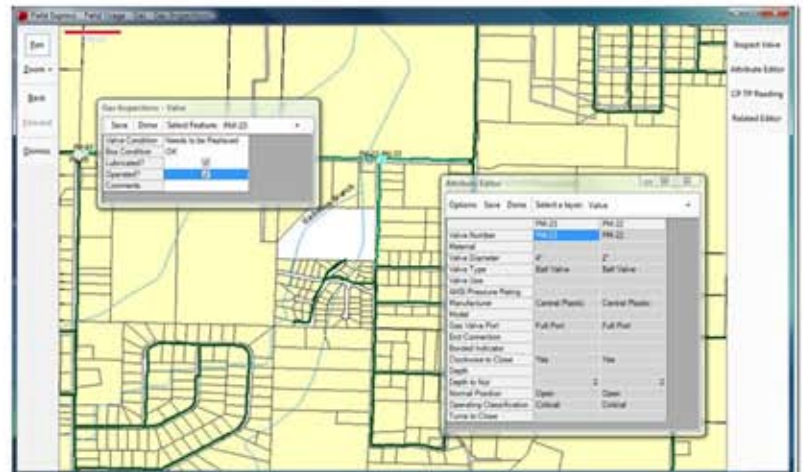

Mobile Access to your Assets

Field Express Chameleon is a highly configurable mobile application developed using the ESRI ArcGIS Server Mobile technology. Able to run in XP/Vista or Windows Mobile 5 and 6 handheld devices, Field Express Chameleon can connect to the back-office in real time.

Field Express Chameleon
Rapidly Configured to Perform:

- Valve Inspections
- Correct & Capture Data
- Leak Management
- Route Management
- CP Management
